

You Make Friends By  
Recommending A Reliable  
Kidney Medicine

Your representative called at my door yesterday meaning to leave a sample of your noted Swamp-Root, and I am certainly pleased to see anybody connected with the firm who makes a medicine which has done so much for me and my family. A few years ago I was suffering from a terrible pain in my back, and when I was up around the house I had to walk with my body bent nearly double. If you had placed a thousand dollars above my head I could not straighten up to get it.

Hearing of Dr. Kilmer's Swamp-Root I sent you for a sample bottle and from the effects of that small amount I was sure it would help me, so I bought one bottle, and it has cured me. Shortly after that my husband, who was a coal miner, was suffering from kidney trouble and could not work, and I sent for some of Dr. Kilmer's Swamp-Root. He was in a terrible condition, but as the doctors had not given me any relief I had more faith in Swamp-Root, and it was well founded, for it did the work, and after taking a few bottles he was completely cured.

I daily recommend the use of Swamp-Root to my friends and neighbors.

Sincerely yours,  
MRS. JOHN NORDQUIST,  
Galeton, Penna.  
Sworn and subscribed to before me this 14th day of May, 1912.

HE HASN'T A CENT

Unable to Account for More Than \$500,000 of \$2,000,000 Received for Stock.

New York, Jan. 23.—Henry Siegel, head of a chain of dry goods enterprises, most of which failed recently, took the witness stand yesterday before a special master appointed in the receivership proceedings, and testified that he was practically penniless.

"I used to draw \$4,000 salary every month from my stores," he said. "Now I have no income. I haven't a cent."

Siegel told of the organization of the Siegel stores corporation, which he and Frank E. Vogel formed as a holding company to take over the Siegel stores in Chicago, New York and Boston. He said the common stock of the company, owned in most part by himself and Vogel, was given them for their share in the stores. The preferred stock—\$2,000,000 in all and paying 7 per cent.—was sold for cash in England and Scotland, very little being retained in America.

THE "FEDS"  
TO FIGHT

War Likely to Be Declared  
on Organized Baseball

BY THE NEW  
FEDERAL LEAGUE

Conflict Seems Almost Un-  
avoidable as Matters  
Now Stand

Chicago, Jan. 23.—Plans for a legal war on organized baseball have been outlined by the Federal league and lawyers who will direct the campaign are rapidly preparing for defense or offense, as developments require, according to President Gilmore, who returned yesterday from Cincinnati.

He refused to discuss the report that the Toronto franchise might be transferred to Cincinnati, though other leaders of the new league seemed to think it likely that such a transfer would be made.

"I expect the league will start the season with the present line-up," said Gilmore.

Except that the league in time of peace had prepared for war, Gilmore would not discuss any plan of action which may result from the signing of William Killifer by the Philadelphia Nationals after he signed with the Chicago Federals. Every point that might be made in court was watched for by the league officials yesterday, however.

With this view, Charles Weeghman, the local club owner, refused to receive from a postman a registered package marked in one corner "William Killifer" and thought to contain Killifer's contract with the Federal league and the advance money said to have been given him by Weeghman.

Manager Joe Tinker of the Chicago club received a telegram yesterday from Brennan, which he believes indicates that Brennan will remain with the Federals. The telegram quoted a message received by Brennan signed by Killifer and read as follows:

"Joe Tinker, Chicago. Telegram received this morning: I have stood out. Would advise you to take contract offered by Mr. Baker. Wire me this city.—William Killifer." Was misled by him, but will stick with you. Wire me immediately when I can see you.

(Signed)

MARKED INCREASE  
IN AUTO EXPORT

While Imports Dropped Off Largely  
in the Period from 1903 Until  
1913.

Washington, D. C., Jan. 23.—Automobile exports from the United States are 20 times as much as a decade ago. Reports of the value of automobiles and parts thereof sent out of the United States in the 11 months ended with November, 1913, justify the statement that the total for the full year just ended will approximate \$40,000,000, against less than \$2,000,000 in 1903, a decade earlier.

The detailed figures for the 11 months ended with November show that 23,579 passenger automobiles and 921 commercial vehicles valued at approximately \$25,000,000 worth of parts of automobiles, \$3,500,000 worth of tires, and \$1,500,000 worth of automobile engines, the total for the 11 months is approximately \$30,000,000. The shipments to Porto Rico, Hawaii, and Alaska, which are not included in the figures, approximate \$2,000,000, making the grand total for the 11 months practically \$32,000,000 and fully justifying the estimate of \$40,000,000 for the full calendar year 1913. In 1903, a decade ago, this total was less than \$2,000,000; in 1906, about \$5,000,000; in 1910, approximately \$10,000,000; in 1911, \$24,000,000; in 1912, \$53,000,000, and in 1913, approximately \$20,000,000.

Meantime the imports of automobiles show a marked decline. The total value of automobiles and parts thereof imported in 1909 were nearly \$4,000,000, and in 1913 about \$1,500,000.
